

DIRT WORKS, LLC

CAPABILITY STATEMENT

"Precision from the Ground Up"

M&R Dirt Works, LLC is a Northern Alabama-based excavation and site preparation firm specializing in high-tolerance grading and residential development infrastructure. We combine advanced technology with a mission-first approach to ensure every project begins on a perfect foundation.

CORE COMPETENCIES

- **Precision Site Preparation:** Residential and commercial building pads, footer excavation, and utility trenching.
- **Advanced GPS & Laser Grading:** High-tolerance finish grading for specialized projects including **pickleball courts** and **structural pads**.
- **Heavy Excavation:** Comprehensive land clearing, root/stump removal, and rock breaking.
- **Infrastructure & Access:** Road-base construction, private driveways, and culvert installation.
- **Water Management:** Professional pond builds, leak repair, and complex runoff/erosion control systems.

DIFFERENTIATORS

- **Zero-Margin Accuracy:** Our expertise in **pool excavation** and **sports court grading** allows us to hit tighter tolerances than standard residential crews, reducing concrete waste for builders.
- **Technology-Driven:** We utilize **laser and gps-guided blade control systems** to ensure engineering specs are met on the first pass, keeping the project on schedule.
- **Local Expertise:** Based in Cullman County; we possess deep knowledge of Northern Alabama soil density, drainage patterns, and municipal regulatory requirements.

PAST PERFORMANCE (Highlights)

- **Subdivision Site Prep (Cullman):** Complete land clearing and pad preparation for multi-lot residential developments.
 - **Luxury Subdivision Site Prep (Smith Lake):** Precision building pads and footers, road-building and amenity excavation for luxury lakefront community.
 - **Mountaintop Pad Excavation (Lacey's Spring):** Complex grading and excavation on high-slope terrain.
-

CORPORATE DATA
